# Slow Play

The regular occurrence of "Slow Play" is discussed consistently among members, and with the thought that almost every player/ member of the Club has at some time expressed concern about the effects of Slow Play on their enjoyment of the game.

We publish the following ten suggestions which could be of assistance in overcoming the problem.

1. Not being ready on time. Select club and ball while other players are having their shots.
2. Delays on tees or greens while marking the card. Always mark the card while awaiting your turn at the tee.
3. Players wait with others on the tee until all have played their shot, then walk to their own ball. Walk directly to your own ball, or level with same, and select club to be used while waiting for others to play their shots.
4. Unnecessary number of practice swings. It is agreed that each player has his own preference in this matter, but practice swings should be limited by discretion.
5. Delays in locating lost balls. If, after a reasonable period, it is apparent you are holding up play, call next group through.
6. Lack of discretion in going through a team that has lost a ball. If called ahead as in (5) but immediately afterwards, the team ahead locate their ball and it is evident that play will proceed faster if they continue; you should signal them to go ahead.

NOTE: The discretion is in the hands of the team called through and not the players who were looking for the lost ball.

7. On the putting green unnecessary marking of balls and players not continuing to putt out. On reaching the green and your ball, study the line of your ball, study the line of your putt immediately. When it is your turn to putt, try and whenever possible putt right out.

Marking the ball is sometimes necessary, but not always and should be avoided.

8. Players not using the time on the green, while waiting their turn, to assess their own putt. Whenever possible, a player should have assessed his own putt for direction and speed while the other players are putting, providing in do so, no interference is caused to the other players.
9. Incorrect handling of the flag, on the green. The player nearest the hole should attend the flag and then pass to the first player to hole out, then appraise his own putt.
10. Leaving buggies in front of or around the green on the wrong side of the next tee. Always place your buggy adjacent to the approach to the next tee.
11. Important points to remember: Pace is always related to the group in front. Keeping pace is maintaining an interval of one shot (6) minutes with the group ahead. Keeping pace is finishing each nine in 2 hours or less.

## **BY FAR THE MOST IMPORTANT RULE IS BRIEF**

Each player walks directly to or adjacent to his ball at all times, and waits there for the player farthest from the hole to play his shot. That he has used that time to assess his own shot. We ask you all to get into the habit of playing this way, and if you see anybody NOT playing this way, this is why you are having a slow round.
